We are facing a national crisis.

Florida has been implementing "Project2025" since well before most of us heard of it. Now it is being implemented across our nation at breakneck speed. Stealing hard-earned freedoms and dismantling vital aspects of our nation's democracy. This unprecedented power grab is driving up prices, slashing funding for essential programs, and creating instability.

We cannot be silent! We cannot be indifferent!

We cannot let the balance of power designed by the writers of our Constitution be ignored or dismantled thereby eroding nearly 250 years of sacrifices to build a nation of service, leadership, and freedom.

Slashing Medicaid, Social Security, cancer research funding, and more. Ignoring sacrifices of our Veterans and our global partners. Widening the economic gap between hard-working Americans by giving more tax breaks to billionaires. Plus, it's not just about money—it's also about power.

VETERANS SHOWED UP FOR THIS COUNTRY

NOW SHOW UP TO VOTE.

Election Day: April 1.

Vote for leaders who show up for veterans.

Two US House of Representative seats are vacant.
Special elections are being held:
Florida's District 1 and District 6 on April 1, 2025.

There is also a special election in New York.
If all three seats flip, MAGA loses the majority.

While FFD is non-partisan, we support all efforts to slow the MAGA chaos and its harm to our veterans, workers, and the economy. Floridians for Democracy voters in these districts can make a huge difference in electing candidates who will impede the MAGA movement. Regardless of where you live, there is still time to volunteer for a campaign and donate.

There are many Veterans in these districts which encompass Pensacola, Fort Walton Beach, Daytona, St. Augustine, and neighboring communities. Veterans are losing jobs. Their sacrifices are being ignored in multiple ways.

If MAGA loses these elections, it'll send a message to the entire country.

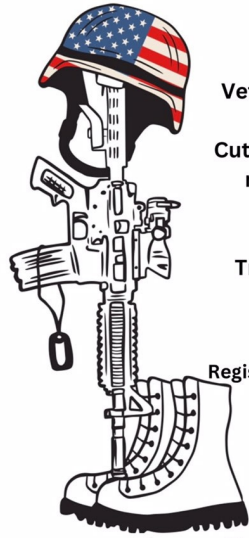

Websites for the candidates are:

Thank You Is Not Enough Hands Off The VA

Veterans have earned their benefits.
Cutting jobs and funding will make receiving earned benefits difficult.
Let's tell the Trump administration to keep their hands off VA funding .

Topic of Conversation :

The Safeguard American Voter Eligibility (SAVE) Act reintroduced in the U.S.

House of Representatives would require all Americans to prove their citizenship status by presenting documentation—in person—when registering to vote or updating their voter registration information. Specifically, the legislation would require the vast majority of Americans to rely on either 1) a passport or 2) a birth certificate in combination with a government-issued photo ID to prove their citizenship. While this may sound easy for many

Americans, the reality is that more than **140 million American citizens** do not possess a passport, as many as **69 million women** who have taken their spouse's name do not have a birth certificate matching their legal name, and **millions of transgender Americans** do not possess these documents reflecting the name they use.

Additionally, the in-person requirements of the bill would mean accessible voter registration systems that tens of millions of citizens, including 60 million rural Americans, rely on every election cycle would no longer be available. The SAVE Act would force some rural Americans to **drive up to eight hours round trip**, and even cross state lines, just to update their voter registration information.

Ahead of the expected vote on the SAVE Act the week of March 31, please join the Center for American Progress for a virtual event to hear from CAP experts about their work on the SAVE Act, how the legislation would affect tens of millions of Americans, and what you can do to help prevent its passage. These experts will take your questions following their presentations.

Floridians for Democracy (FFD) is a 501(c)(4) organization, dedicated to preserving and protecting democracy. FFD does not support or oppose any candidates for political office. We envision a state of Florida where all elected leaders proactively implement laws ensuring all residents have equal opportunity, regardless of race, gender, religion, or sexual orientation as granted by democratic freedoms dictated in the constitution.
